

MAS334 COMBINATORICS 2017/2018
Feedback on homework 3

- Marks out of 20; Q1 out of 10 and Q4 out of 10.
- This homework was generally well done, with lots of high marks.
- In rook calculations, it's a good idea to arrange things so that you can apply the disjoint boards theorem.
- Calculation by hand is fine if you get the right answer.
- If you are still not clear about the meaning of the “disjoint boards” condition, please ask me.
